Do you have what it takes to see the VISION? A special featured lot in the fall HPCA sale, and we sure think he is the vision of what HPCA is - measured excellence. Best of all, there's not another son of Home Town that combines this level of genetic merit with a superior stockman's phenotype:

stout and big bodied with extra muscle shape and power, complimented with extra ruggedness and superior feet. This bull is absolutely the VISION that HPCA and others have, relative to the direction of the Angus breed!

MEASURED *excellence*
