Veracious has quietly earned his place as one of the most proven and valuable sires in the breed. With well over 3,000 progeny now, he still is the dominant sire for the combination of CW, Marb, and RE, but he is so much more. Sort by his level of CED, YW, CLAW, ANGLE, \$EN, and \$M alone, and you will find there are only eleven sires. Also, you will see none of those are even close to Veracious for his level of either marbling, either ribeye, or either \$C, let alone as a combination. He really is the dominant sire for "across the board" traits, not just carcass, and his daughters are topping sales across the nation.
